Local Business Online

Cost effective advertising for ALL Business

Local people love to support local business

We wanted to create a cost effective site where

all business could advertise....

*give the "local small business" a profile in their community
and where the public could finally access a "local business online"*

**Register FREE as a business member on the left hand side of the home page or email me today
for your fortnightly or monthly update on what's happening at LBO**

I decided to create local business online after becoming extremely frustrated not knowing the name of my local fish and chip shop....

How can you look it up if you don't know their name.....?

But it was not only that.... there are a whole heap of local businesses that I really don't know exist...

It became clear to me that most of the time, no one knows your there!

Many years ago I had looked into all options of marketing a florist shop I was managing, there was no advertising budget and the business always had new customers walking in the door.

luckily we where able to rely on the crowds the shopping centre brought in to give us these new clients

If you do not advertise in your local areas how is the public going to know your there???

If you would like to expose YOUR BUSINESS

visit our “register your business” page and go to packages for pricing and registration information.

On the 1st of march we will begin our LBO Jmail flyer drops, advertising a select number of businesses within our local community and inviting the public to take a look at the local businesses online....

In the meantime we are calling for all charity organisations to load their profiles on the LBO website free of charge*

***subject to managements approval.**
